

# Reduce the 3 most common drug errors in the OR with SLS.

## Eliminate Vial and Ampoule Swaps

- Scans the FDA-mandated manufacturer's barcode at the point of care and provides visual and audible identification of the drug in hand.

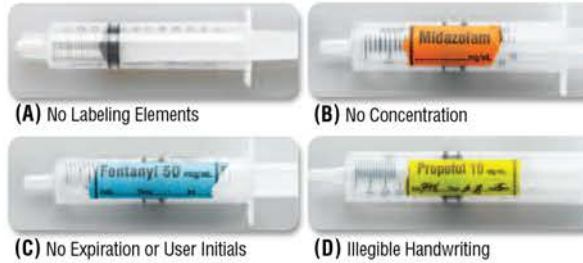

## Eliminate Mislabeling / Illegible Labeling

- Produces TJC-compliant, full-color, easy-to-read labels on demand based on your hospital-approved formulary.

SLS eliminates the four most common syringe labeling errors:

## Reduce the Risk of Syringe Swaps

- Prepared and labeled syringes can be scanned for verification prior to administration.

Codonics® Safe Label System® (SLS)
